_____	_____	%	doesn't	_____	%	_____	_____	%
_____	_____		meet, see	_____		_____	_____	
_____	_____		<u>note below</u>	_____		_____	_____	

Comments: A visibility study was not done since the train/vehicular product exceeds 3000.  
Due to the nature of the surrounding residential area, bringing the highway approaches into strict compliance is not practical and is also beyond the scope of this project. The intent of this corridor project is to upgrade the existing automatic safety devices from flashers and lights to flashers, lights, and gates where there are no gates now, and to renew the flashers lights and gates at locations where they already exist, and to upgrade and modernize the existing circuitry throughout.

ROAD PROFILE

③ Photo Location

Crossing #: 479329M  
 Location: Sangamon Co., City of Springfield (In)  
 Lat/Long: 39°48'05" / 89°38'52"  
 Railroad: NS  
 Street: Washington Street  
 Railroad Milepost: 414.24  
 Crossing Protection: Train Activated Devices
